

DATA SHEET

Plastic sleeves

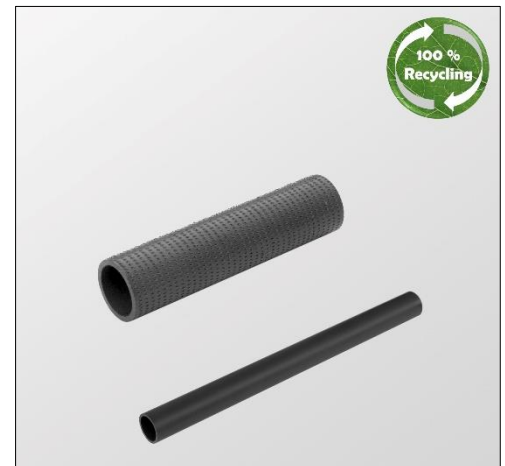

Material:

Polyvinylchloride (PVC), recycled

CFC- and HFC-free

Product information :

Plastic sleeves with rough (code number 101) or smooth surface (code number 102) for production of wall spacers by vertical formwork.

To increase the contact surface on the formwork we advise the use of cones or seal caps. Also, suitable for the production of pipe penetrations in concrete components.

Packaging units and dimensions available (Standard length: 2,00 m):

ITEM NUMBER	INSIDE Ø Dimension in mm	OUTSIDE Ø Dimension in mm	BUNDLE PU in m	PALLET PU in m
