

DATA SHEET

Isl-rocket II

Material:

Steel (ST), Polypropylen (PP)

PVC-, CFC- and HFC-free

Product information :

Stable spacer for the double wall production of 8 mm steel with injection-moulded head and newly designed foot. By the injection of head and foot, we reach minimal differences in the lengths of individual rockets which guarantees accurate walls during concreting.

Contact area for 15, 20, 25 and 30 mm concrete cover. The ISI rockets can be extended using our extension pieces in 10, 20, 30 and 40 mm lengths. Please note that the WU test expires when using the extension pieces.

Tested according to DBV data sheet "Abstandhalter" – Eurocode 2, version November 2019.

Packaging units and dimensions available:

ITEM NUMBER	HEIGHT Dimension in mm	PALLET PU in piece
364.I200k	200	2.500
364.I240k	240	2.200
364.I250k	250	2.000
364.I300k	300	1.800

PU: loose in pallet box
