

DATA SHEET

Cross profile

Material:

Polyvinylchlorid (PVC), recycled

CFC- and HFC-free

Product information :

The cross-shaped linear spacer in twisted design is laid diagonally to the reinforcement.

Its special profile geometry ensures the required concrete cover and provides secure positioning of the reinforcement.

Packaging units and dimensions available:

ITEM NUMBER	CONCRETE COVER Dimension in mm	BUNDLE PU in m	PALLET PU in m
133.025	25	100	4.000
