

DATA SHEET

Opti-S-cone

Material:

Polypropylen (PP), recycled

PVC-, CFC- and HFC-free

Product information :

Cone with water barrier and push-on cones for 10 mm concrete cover (can be removed after concreting) to increase the contact surface of the spacer tubes on the formwork.

For optimal results with exposed concrete walls, we recommend the use of our sealing rings.

Tested for water resistance in conjunction with our Opti-S-Stoppers.

Packaging units and dimensions available:

ITEM NUMBER	FOR TUBE Ø Dimension in mm	BAG PU in piece	PALLET PU in piece
302.2226	26	200	8.000
