

DATA SHEET

Multi-rocket for precast walls

Material:

Steel (ST), Polypropylen (PP)

PVC-, CFC- and HFC-free

Product information:

Plastic spacers for double wall production with 7/10 mm steel core.

Due to the complete spraying of the individual rockets, there are no differences in length, which guarantees dimensionally accurate walls when concreting.

Support surface for 15-, 20-, 25- and 30-mm concrete cover.

Packaging units and available dimensions:

ITEM NUMBER	HEIGHT Dimension in mm	BAG PU in piece	PALLET PU in piece
