

DATA SHEET

Attachment pieces for Isl- and T-Rocket

Material:

Polypropylen (PP), recycled

PVC-, CFC- and HFC-free

Product information :

The Isl and T-rockets can be extended by the respective length with 10, 20, 30 and 40 mm attachments.

This means that intermediate sizes can be assembled at short notice in your production. The attachment pieces cannot be used for the assembled execution.

Packaging units and dimensions available:
