

DATA SHEET

GFK-pin

Material:

Polyamid (PA)

PVC-, CFC- and HFC-free

Product information :

Stable spacer made of glass fibre reinforced plastic for double wall production.

Especially used for the production of inside insulated walls.

Low heat conductivity. The spacer does not take up any permanent static functions.

GFK-pins can be shortened as required.

Packaging units and dimensions available:

ITEM NUMBER	LENGTH Dimension in mm	CARTON PU in piece	PALLET PU in piece
364.k300	300	280	8.960
364.k350	350	280	8.960
364.k360	360	280	8.960
364.k400	400	169	6.760
364.k450	450	169	6.760
364.k500	500	169	6.760
