

DATA SHEET

Plastic anchor for precast walls

Material:

Polyethylen (PE), recycled

PVC-, CFC- and HFC-free

Product information :

A wall anchor for fixing three-layer walls with inclined supports when placing on the building site (with screws DIN 571 12 x 70).

Fixing with hot glue on the formwork. Roughened adhesive surface with low recess is suitable for minimal adhesive consumption. Bonding plates can be removed.

Deliverable with pre-assembled plugs in screw channel (item no. 405.S). Thus, no adhesive can penetrate in the screw channel.

Easy removal of the plugs is possible before fixing with screws.

Packaging units and dimensions available:

ITEM NUMBER	LENGTH Dimension in mm	VERSION	BAG PU in piece	PALLET PU in piece
405.	80	without plug	500	20.000
405.S	80	with plug	500	20.000
