

DATA SHEET

MS-Bars

Material:

Steel (ST), Polyethylen (PE)

PVC-, CFC- and HFC-free

Product information:

Bar spacers from 6 mm reinforcement wire BST500 with firmly sitting, but nevertheless moveable, stable spacers. Low contact area on the formwork.

The reinforcement wire is located outside the necessary concrete cover. Simple handling due to the bundle on the pallet.

Deliverable bar length from 76 cm up to 297 cm, foot spacing 30 cm.

Packaging units and dimensions available:
