

DATA SHEET

Rüstahl 4

Material

Steel (ST)

Product information:

Rüstahl 4 is a supporting spacer for the upper reinforcement with a bearing surface of approx. 30 x 30 cm. Rüstahl is suitable for supporting cooling and heating systems.

Particularly gentle on formwork thanks to the alkali-compatible and corrosion-resistant plastic feet approx. Ø 14 mm. Alternatively also available with concrete feet or plastic support discs approx. Ø 45 mm for use on soft surfaces such as insulation. Also available with welded crossbar.

Tested according to DBV data sheet "Abstandhalter" – Eurocode 2, version November 2019.

Packaging units and available dimensions:

ITEM NUMBER	CONCRETE BASE	PLASTIC SUPPORT PLATE	HEIGHT in cm
RS4k8	RS4k8b	RS4k8t	8
